

# SOLEM Garden Automation

## Irrigation System and Misting

Irrigation of terraces (potted plants) and small gardens using  
hose end watering devices

**BL-NR**

 **Bluetooth**<sup>®</sup>  
SMART

### **Tape and hose connector :**

- 3/4" BSP thread type for European model
- Works with a pressure of 1 to 6 bar and a maximum of 38 l/mn water flow
- Recommended pressure : 0.5 to 6 bars
- Recommended flow : 2 l/hour to 38 l/min (must be protected from freezing in winter)

### **Features :**

- Bluetooth Low Energy Communication
- Bluetooth range : about 10 meters
- Standalone: works with a 9V alkaline battery type 6Am6 (international standards) or 6LR61 (European standards) not included
- Start/ Stop programmable function
- Non volatile memory will save programming in case of power failure

### **Programming Specification :**

#### **In Irrigation Mode :**

- Up to 8 start times per day
- Run times from 1 minute à 12 heures
- Cycles : Days of the week, Odd/Odd 31/Even days, every other 1 to 31 days
- Rain Delay up 15 days or permanent
- Manuel Start/stop

#### **In Misting Mode :**

- Run Times : 5 seconds to 24 hours
- Interval between run times : 30 seconds to 31 days
- Up to 4 programs per day
- Cycles : Days of the week

#### **Operating Température :**

- Up to 50°C and must be protected from freezing in winter

#### **Dimensions :**

- Width : 11,5 cm
- Height : 14,5 cm
- Depth : 6 cm

#### **Model :**

- BL-NR-EU
